

\*What are your top reasons for using doingText over google docs etc.??\*

The idea is you insert your reasons below. Feel free to explain it in longer words if you wish to. If your main reason is already mentioned, you can leave your vote in the comments.

\* collaborators don't need an account

\* Comments are very close to the related text passages

\* The text itself is not being dominated by comments and history; it remains the main act as it should be.

\* Clean and lightweight mobile interface
